“ Hello to the the DeBlock family... my name is Rodney Bryant.....

My condolences go out to the deblock family.

Alexandra deblock was my first friend in kindergarten. we went to Newberry Elementary. My first memory of Alexandra was when I made a bet with her a school in the classroom. I had some Caesars and I faked like I cut my lip but I pulled my lip back before I close the Caesars. So when it was her time to try the trick she end up cutting her lip for real I was afraid for a minute. But she was okay. We always used to sleep together on the mats in the classroom and work together we was eating glue and everything. I remember going to her 6 year old birthday party. She stay exactly across the street from the school with her mother. I remember going straight across the street from our school to her party. We used to have so much fun on the jungle gym at school .... I recently ran across her a few months back. And it was like I never left her side. She is a awesome friend , she's very loving. She would help out anybody.she would give her last to help a someone and not only that she has so much wisdom and knowledge to give to a person in the time of distress to overcome their problems.. one day we was riding a bike moped and she called herself trying to pull me. so she wasn't paying attention and I played a trick like a car was coming. She hit the brakes so quick. I haven't laughed like that in a very long time. So she let me ride the scooter and I pulled her. So about time we made it to the store. I couldn't find the brakes and almost ran into a car she was crying laughing. She said she haven't had that much fun in a long time. Her daughter Lillian is her heartbeat. She loved her so much she used to always talk about how she wanted to get her a horse. She used to explain had great of a rider she is. One day we all went to putt putt golf and games. Mr Rodger , Lillian Alexandra and I . We had the best of time there and her daughter Lillian was talking about a game and she was explaining to me how you hit it soft with a hammer and you can win a lot of tickets. she was explaining it to me and she turned around and hate big for a lot of tickets. Not only that we had so much fun riding and enjoying the go kart race. Alexandra and her daughter Lillian they had so much fun together the smile that they had God couldn't even turn his face from it. And her daughter Lillian was riding the go-karts so fast that I didn't see her coming and she ran right into me. I thought that was so cute and she was just smile. I want to thank Mr Rodger for letting me enjoy the the memories I have encounter from the day . he is a great man can say a true role model to Alexander and Lillian. Alexandria enjoyed Krispy Kreme cluster Donuts , her favorite ice cream was Ben & Jerry's salted caramel blonde. Her favorite Disney character was Mickey Mouse. She can make the best slushies. she was full of life and everything about it from nature to God creations starting life , she enjoyed art. But most of all she missed her mother. And she loved her Dad Mr. Rodger she spoke about him often she spoke Halle about her grandparents and family. She was a very strong young woman. And she was very intelligent. My heart goes out to her Lillian Rodger and deblock family. May you all strengthen each other at this time. I still can't believe she's gone . but she's in a better place where she is free. I praise God for letting me meet her again before she passed away . She may be gone from our physical eye sight but her spirit and soul still dwell within our hearts. Thank you all for letting me share my memories with you all . MAY God be the glory..

“ Peace & Love... Praying that God strengthen your family in this time. Rodney Bryant is my little brother, and one thing I know about him is that he's a genuine person. So to hear him speak of Alexandra like that. She had to be an angel sent from above.
