“ *I grew up with Carey. I live in Memphis and did not even know he lived here. I am heart broken about this news. I have no idea what happened but I have nothing but fond memories of him. We we're great friends on the soccer team and I always had fond memories of him. I am full of regret that I did not know we were living close each other.*

“ *Carey was always very helpful. If you needed help with something, he would offer and then check back with you later to see the outcome. Very thoughtful, intelligent, kind man. I am grateful that I got to know him. Condolences to the family.*
