Dear baby Sis, well you beat me to the golden gates, I will miss you forever. Our entire family is there now almost. I will always cherish the good times and the last four or five years we really did have some great ones didn't we Sis? You were always so wonderful with your grandchildren and daughters and you lived for them. They will be fine, God will take care of them, you can rest easy now. I know you're happy to be reunited with your husband Mike and Mom and five of our siblings. I remember all your cooking for me that was fabulous and I'm always already losing weight, ha. I'm sorry we never got to take the cruise I promised you. Our health was just poor and I will regret that everyday of my life because you earned it you earned it. Play some Marshall Tucker for me up there your favorite band at least I got to take you to that concert. 🌹 I will love you always. I really wish I could have been more like you, less aggressive and more passive but that was only because I always try to look out for you since we were little girls. You can rest easy now Sis and no more illnesses. Everyone please that reads this support the cure because cancer is taken so many beloved lives. ❤️💕🧡
