# Tribute Wall

MG

“ Johnny was the best better than all the rest. I miss him sooo much. Johnny was a beautiful person and knowledgeable about so many things. We had a lot of good times in our office. Johnny was a "everybody loves Johnny" type of person. We know you was struggling down here with your health, and that God called you home to rest where you can breathe easy like Sunday morning. We will always love you John, John. Bye for now.

AR

“ This obit does not do justice to the man I worked with for the last eight years. He was an Army veteran and served his country. After discharging from the ARMY, he continued to support his ARMY as a civilian employee for over sixteen years. He was a friend to all who knew him. He would help anyone in anyway that he could. He was very knowledgeable about so many things and even things that no one else probably gave a second thought to. Your USACE family will always miss you dearly Johnny B! This has been hard on all of us to come to work and no longer see you at your desk. However, we know how hard you worked for every breath you took and rejoice that you are no longer in pain and are free from the things of this world.
