

Robert Charles DuBois Jr.

August 23, 1945 - March 30, 2026

Born 8/23/1945 - Died 3/30/2026. That dash is filled with 80 years of a life well lived! Bobby, Dubo, or Bob, as most people called him, was a proud graduate of Treadwell High School, class of '64. He proudly served his country in the Navy and continued his passion and respect for the military for his whole life. He absolutely loved being a part of Forever Young Veterans group and enjoyed telling every veteran he met about them. So, if you are a veteran, check it out. He would be glad you did! I thought I would share some of his famous words of wisdom with you. If you are walking through a parking lot, avoid stepping in oil. Oil is cheap, motors are not, change it. If you borrow something, you always return it better than you got it. And the worst thing you can do is just sit. (This applies to your vehicle as well) In case you couldn't tell, he liked cars. He was known to turn a wrench and drag race a few pretty neat hot rods. Never a day went by that he was not taking his vehicle through the carwash... twice on gun match days. He loved shooting his guns competitively as well as tinker with them to make them "just right". While our Mom made sure there were beautiful flowers in the beds, he always made sure they were accompanied by a beautiful lawn. Bob was a loving husband and Dad that not only worked hard, but also made sure his family knew the fun of a water park and joy of a roller coaster. Sorry to make this short story long as he would say. We love him and miss him and know that he will be missed by so many. In lieu of flowers, please donate to Forever Young Veterans PO Box 1381 Collierville, TN 38027.

“ Bob was the best teacher I had concerning pistol and rifle stance, posture, grip and fine tuning on breath control when I squeezed the trigger.

Ever time a was at TWRA or MSSA, and he was range master, I would learn something new or adjust something I was doing wrong.

The last time he was my coach while at the range, he had me move my feet to improve my accuracy and tighten my group.

I even went to his home to do some sight adjusting 👍 100 🇺🇸 🤓 🙏
